Faker

Faker is a Python package that generates fake data for you.

To Install

Go to terminal > pip3 install Faker

Code

```
from faker import Faker
fake=Faker()

fake.name()
fake.address()
fake.text()
```

To Enter in a Database

```
import random
from faker import Faker
from blog.models import Post
from django.utils import timezone

fake=Faker()
id=random.randint(1,3)
title=fake.name()
status=random.choice(['published','draft'])
Post.objects.create(

        title=title,
        author=User.objects.get(id=id),
        slug="-".join(title.lower().split()),
        body=fake.text(),
        created=timezone.now(),
        updated=timezone.now(),

    )
```
